

BIOMEDICAL TEST INSTRUMENTS

PRESSURE / VACUUM METERS

DigiMano 1000

NEW

Updated Model. Pressure & Vacuum. 0.25% Accuracy. Luer Lock Fitting. Display mmHg and in H₂O or PSI. Manual Zero. 9 V or AC Operation. Five Models.

Pressure & Vacuum. 35 Models. 0.25%, 0.1%, or 0.05% FS Accuracy. Many Ranges. Display Multiple Engineering Units. Data Output. 9 V or AC Operation

UniMano 2000

0.1% Accuracy. 8 Units. Auto Zero. Peak Pressure. Optional Temp.

Digimano 2000

0.1% or 0.05% 5 Eng Units Auto Zero Aluminum Case

ELECTRICAL SAFETY ANALYZERS

LKG 601

NEW

20 Amp

Basic Non-ECG Electrical Safety Analyzer. Measures Cord Resistance, Leakage Current, & Instrument Current. Large Display. Unit of Measure Indication. Test Points. Accessible Fuse. IEC & AAMI Load.

LKG 610

NEW

Comprehensive 10 Lead Analyzer. Cord Resistance, Internal and External Leakage Currents, Leads Leakage, Lead ISO, Point to Point, Calibrated Test Points. 20 Amp Capability. IEC & AAMI Test Loads.

Multipro 2000

Just Updated. Comprehensive Microprocessor based Electrical Safety Analyzer. Built-in 12- Lead ECG Simulator. NSR, Performance, 12 Arrhythmias. RS 232 Serial Port. Memory. 20 Amp.

DEFIBRILLATOR TESTERS

Delta 1500

NEW

TEST AED's

NEW AED Analyzer. Tests All Semi and Automatic Defibrillators (AED). Check Arrhythmia Recognition, Charge, Discharge, and Measure Delivered Energy.

Delta 2000

Tests All Defibrillators – Semi- Automatic & AEDs. ECG & Arrhythmia Waveforms. Large LCD. External Arrhythmia Input. Battery & AC Operation.

Delta 3000

UNIQUE

Tests ALL External Pacers & Defibs.

NEW Multi-Function Analyzer. Test All Defibrillators & All External Pacemakers. 12 Lead ECG, Performance, Arrhythmia Waveform Simulator. Palm Pilot Interface.

Call 800 - 547- 6557 or email sales@netech.org to arrange a Product Evaluation.

ISO 9001 – 2000 Registered

2 Year Warranty

BIOMEDICAL TEST INSTRUMENTS

PATIENT SIMULATORS

MicroSim

Two Models

ECG & BP

ECG & Arrhythmia

5 Lead ECG & BP Simulator. Normal Sinus Rhythm & 20 Performance Waveforms, Dynamic & Static BP Values, Variable Rates & Amplitudes, 9V Battery.

HolterSim

Three channel 7 Lead ECG. On Demand PVC Generation for Time Testing. 200 ms Square Wave. 1 mV and 2 mV Amplitudes. 9 Volt Battery Operation.

MicroSim Cardiac Output

UNIQUE

Stand Alone Model

Stand Alone Cardiac Output Simulator. 32 Curves & Square Waves, 4 Flow Rates, 2 Blood & 2 Injectate Temperatures. Self Test . 9V Battery Operation.

PATIENT SIMULATORS

MiniSim 1000 Multi-Parameter

Small Comprehensive Best Value

Full 12 Lead ECG, 45 Arrhythmias, Plus Performance Waveforms. 2 IBP with Dynamic & Static Waveforms, Respiration/Apnea, & Temperature. 9 Volt or AC Operation.

PACEMAKER ANALYZER

EXPMT 2000 & EXPMT 900

Comprehensive External -Transcutaneous & Transvenous - Pacer Testers. Test All Models. Measure All Variables. EXPMT 2000 has 12 Selectable Test Loads, 5 Leads, RS232 Serial Port. 9V Operation.

NIBP & SPO₂ ANALYZERS

SmartArm & SmartSat

Industry Standard Analyzers. Test All Parameter Variables of All Brands of NIBP and Pulse Oximeter Monitors. Large Display. Battery & AC Operation. Complete Set of Adapters Included.

TACHOMETERS

Shimpo Series

LASER

Advent Series

Choose From: Contact, Photo, Laser, and Combination Models. Selections Of Accuracy, Ranges, Units of Measurement, LCD or LED Displays, Inverting Displays, Memories, Low Battery Indication, Aluminum or Plastic Housing. All Models include Carrying Case, Manual, Certificate of Calibration, Reflective Tape, Connectors, and Batteries.

U/S POWER METERS

5 Models

Measure Power Output of Diagnostic & Therapeutic U/S Transducers. Choices of Power Range, Resolution, & Coupling Medium. Battery or AC Operation.

Call 800 - 547- 6557 for Complete Specifications.
